

About the Environmental Report

MMC's 1999 Environmental Report describes the various steps taken by Mitsubishi Motors to help protect the environment in FY 1998. Being the first report of its kind to be published by MMC, however, some background is also given concerning environmental activities prior to FY 1998 in order to give the reader a better overall picture of the sorts of steps being taken. The primary objective being to give our stakeholders a greater understanding of our constant efforts to protect the environment, we have chosen to make as much use as possible of quantitative data, while at the same time presenting it in a clear and easy to understand manner, and we hope that it provides the reader with a deeper understanding of MMC's environmental activities. We will continue to step up our environmental action in the years ahead, and any relevant comments or suggestions our readers may be able to make would be gratefully received.

Corporate profile

(Data correct as of March 31, 1999)

<ul style="list-style-type: none"> ● Company name 	Mitsubishi Motors Corporation
<ul style="list-style-type: none"> ● Date of establishment 	April 22, 1970
