* Quarterly review procedures:

As of when this summary of quarterly financial results have been released as flash report, we have not completed the review for the quarterly financial reporting required in accordance with the Financial Instruments and Exchange Act.

* Proper use of earnings forecasts, and other special matters:

- 1. The consolidated earnings forecasts for the 2nd quarter and full year announced on April 27, 2010 were not revised in this document.
- 2. The earnings forecasts are based on judgments and estimates that have been made on the basis of currently available information and are subject to a number of risks and uncertainties. Changes in the company's business environment, in market trends and in foreign exchange rates may cause actual results to differ materially from these forecast figures.

[Qualitative Information and Financial Statements]

1. Qualitative information on consolidated operating results

The business environment in the term for the first quarter of fiscal year 2010 saw the continuation of the overall global economy's mild recovery. However, in contrast to the high growth of Asian countries led by China, economic recovery in European countries was sluggish and the gap between regions increased. In particular, the euro progressively weakened, triggered by the financial crisis in Greece. Furthermore, with the rebuilding of world finances, worsened by the worldwide recession after the "Lehman Shock" becoming a major task mainly for advanced countries, concerns regarding further effects on the economic recovery remain, and the business environment continues to remain opaque and harsh.

Year-on-year retail sales volume by unit increased in Japan and Asia and Other Regions but remained at about the same levels in North America and decreased in Europe. The result being an overall retail sales volume increase of 44 thousand units, or 21% year-on-year to 257 thousand units.

Year-on-year retail sales results by region were as follows: In Japan, registered vehicle sales increased by 4 thousand units with the continuation of eco-car tax reductions and incentives, in addition to strong sales of the *Colt* series and *Outlander* and the introduction of the all-new *RVR* in February. Minicar sales also increased by 3 thousand units with strong sales of the *eK Wago*n and other models. Accordingly, total sales volume for Japan increased by 7 thousand units, or 22% year-on-year to 38 thousand units.

In North America, sales volume in the United States, Canada, and Mexico hovered at about the same levels as last year with the region overall performing at 21 thousand units. In Europe, the new *ASX* compact crossover which was sequentially released from June showed initial success. However, with negative factors such as a major year-on-year sales drop in Germany, where overall demand slumped as a result of expiration of scrap incentives, the region's sales volume decreased by 3 thousand units, or -6% year-on-year, to 46 thousand units. In Asia and Other Regions, sales performance surpassed last year's levels in all markets. With particularly strong growth in China, in those countries of the ASEAN bloc including Thailand, the Philippines, Indonesia, among others, as well as in Australia, the overall region's sales volume increased by 40 thousand units, or 37% year-on-year to 152 thousand units.

Net sales increased 144.6 billion yen, or 56% year-on-year to 403.7 billion yen due to the increase in sales volume.

Operating income rose 25.1 billion yen year-on-year, from an operating loss of 29.6 billion yen to a loss of 4.5 billion yen due to increases in sales volume, an improvement in profitability in MMC's Japanese subsidiaries, and raw material and other cost reductions.

Ordinary income rose 22.0 billion yen year-on-year from an operating loss of 27.8 billion yen to a loss of 5.8 billion yen.

Net income rose 14.6 billion yen year-on-year from a net loss of 26.4 billion yen to a loss of 11.8 billion yen.

2. Qualitative information on consolidated financial position

Total assets as of June 30, 2010 amounted to 1,199.0 billion yen, a decrease of 59.7 billion yen from those at the end of FY2009. Total liabilities amounted to 989.3 billion yen, decreasing 34.9 billion yen from those at the end of FY2009. Out of total liabilities, the balance of interest-bearing debt was 378.7 billion yen, a decrease of 14.0 billion yen from the balance at the end of FY2009. Net assets decreased 24.8 billion yen from those at the end of FY2009 to 209.6 billion yen.

3. Qualitative information on consolidated earnings forecasts

MMC leaves the FY2010 first-half and full-year consolidated forecasts announced on April 27, 2010 unchanged at this time.

4. Others

- (1) Changes in significant subsidiaries during the period (changes in specified subsidiaries resulting in the change in scope of consolidation)

 N/A
- (2) Application of simple accounting as well as specific accounting for preparing the quarterly consolidated financial statements

With respect to the inventories at the end of the first quarter period, physical inventory counts are omitted and the inventories are determined by the reasonable calculation method based on the physical inventories at the end of FY2009.

Depreciation expense of noncurrent assets to which the declining balance method is applied is determined dividing the depreciation expense for the consolidated fiscal year proportionally over the period.

- (3) Changes in accounting policies, procedures, and methods of presentation for preparing the quarterly consolidated financial statements
 - a. Change in the accounting policies

Adoption of accounting standard for asset retirement obligation:

From the beginning of the 1st quarter of this fiscal year, the "Accounting Standards for Asset Retirement Obligations" (ASBJ Statement No. 18, issued on March 31, 2008) and "Guidance on Accounting Standards for Asset Retirement Obligations" (ASBJ Guidance No. 21, issued on March 31, 2008) have been adopted. Accordingly, the operating loss and ordinary loss increased by ¥ 66 million and net loss before income taxes for the 1st quarter increased ¥ 2,772 million as compared to the amount that would have been recorded under the previous method. The change in asset retirement obligations by adoption of these standards is ¥ 5.054 million.
