# 2. Description of business

In the nine months ended December 31, 2023, there were no material changes in the business of the MITSUBISHI MOTORS CORPORATION group (the "MMC group").

Furthermore, Pajero Manufacturing Co., Ltd., a domestic consolidated subsidiary which had terminated production in August 2021 in order to reorganize the production system, was excluded from the scope of consolidation in the second quarter ended September 30, 2023 following the completion of its liquidation.

#### II. Overview of Business

#### 1. Business-related risks

During the nine months ended December 31, 2023, there was no occurrence of new business-related risks or material changes in the business-related risks described in the annual securities report for the previous fiscal year.

#### 2. Management analysis of financial position, operating results and cash flows

Any future forecasts included in the following descriptions are based on the best estimates or judgment of the MMC group as of December 31, 2023.

#### (1) Financial position and operating results

# (i) Operating results

Although the vehicle supply shortage due to semiconductor and vessel shortages began to dissipate, overall demand trended below expectations in some regions. Even in this business environment, MMC results have shown solid performance through the promotion of improvement of sales quality or "take-home proceeds improvement activities."

As a result, net sales of the MMC group were 2,063.9 billion yen (an increase of 258.6 billion yen year on year, or up 14% year on year) and operating profit of 160.1 billion yen (an increase of 6.4 billion yen year on year, or up 4% year on year). Ordinary profit was 166.0 billion yen (an increase of 11.3 billion yen year on year, or up 7% year on year), and profit attributable to owners of parent was 102.8 billion yen (a decrease of 28.0 billion yen year on year, or down 21% year on year).

Furthermore, global sales for the nine months ended December 31, 2023 were 585 thousand units. The sales status by major region was as follows:

- ASEAN: 181 thousand units (down 15 thousand units year on year)
- Australia and New Zealand: 58 thousand units (down 10 thousand units year on year)
- Central America, Middle East, Africa and Other: 97 thousand units (down 17 thousand units year on year)
- Japan: 75 thousand units (up 11 thousand units year on year)
- North America: 117 thousand units (up 20 thousand units year on year)
- Europe: 36 thousand units (down 16 thousand units year on year)
- China and Other: 21 thousand units (down 18 thousand units year on year)

The status of operations in each major region was as follows.

Overall demand in ASEAN countries trended below expectations due to inflation, high interest rates, and stricter screening of sales financing, while price competition intensified.

In such an environment, the Philippines experienced significant growth on the back of increased remittances from overseas workers, declining unemployment, and expansion of sales financing.

MMC's retail sales volume decreased 8% year on year to 181 thousand units for the ASEAN region overall, due to decreases in Thailand, Indonesia, and other countries, despite growth in the Philippines.

In Thailand, where the new-model *Triton* was launched, demand was significantly affected by stricter loan screening of automobile financing, which had a particularly large impact on the pickup segment, with demand falling approximately 40% from the previous year, and MMC also saw a decline in both units sold and market share. We are taking this as an opportunity to improve

sales by launching all product categories in phases, including the *XPANDER HEV* model and the highest grade model of the *Triton*, which are less affected by stricter loan screening.

Similarly, in Indonesia, the impact of ongoing inflation and a wait-and-see attitude ahead of the presidential election was significant, and overall automobile demand fell below the previous year's level for seven consecutive months, with the situation worsening especially toward the second half of the year. Amid intensifying price competition among automakers, for *Xforce*, which began full-scale delivery at the end of 2023, we aim to promote sales by strengthening sales promotion activities centered on event marketing while continuing to promote value.

Although overall demand in Japan has not yet recovered to pre-COVID-19 levels, it has risen year on year continuously since September 2022. Progress has been made in resolving the problem of insufficient vehicle supply caused by the shortage of semiconductors. MMC also made efforts to eliminate the backlog of orders, resulting in a significant increase compared to the same period of the previous year.

*Delica Mini*, which got off to a strong start, has maintained strong sales momentum even after its full-scale launch in the market. For the new-model *Triton*, a model that symbolizes "Mitsubishi Motors-ness," by finally being added to MMC's product lineup, we will effectively promote structural improvements and form a foundation for a shift to value-oriented sales.

Overall demand in North American region was driven by solid retail sales supplemented by increased fleet demand.

Similarly, MMC also achieved a year on year increase by maintaining sales momentum of the core model *Outlander* series, as well as improving inventory levels. In particular, the new-model *Outlander* PHEV, which was launched on a full-scale in November 2022, significantly exceeded the previous year's results.

Production has generally normalized due to improvements in the supply of semiconductors and other components. As a result, the competitive environment has begun to normalize, and it has become apparent that companies are increasing their incentives. While closely monitoring the trends of each company, MMC will focus on improving sales quality and customer satisfaction, establish a shift to sales that do not rely on incentives, and achieve sustainable results.

FY2023 is the first year of the new mid-term business plan "Challenge 2025," and so far our business performance has been favorable. With the successive introduction of new products, we are getting ready to enter a growth phase. We intend to launch full-scale sales of these products and expand their deployment to other regions as well. We regard the success of the new models as an important step toward MMC's sustainable growth.

At the same time, the external environment is becoming increasingly uncertain due to concerns about economic recession in various countries and geopolitical risks. Irrespective of a difficult environment, MMC's major challenge is to take advantage of these new models to increase sales and secure profits. Based on our past experience, we have a track record of overcoming various difficulties and challenges through company-wide efforts, and we believe that we can demonstrate our fundamental strengths precisely because of the difficult environment.

We will steadily resolve each issue one by one and accumulate results for the second year of "Challenge 2025."

#### (ii) Operating results per segment

#### Notes

Changes in the scope of consolidation or application of equity method

For the second quarter ended September 30, 2023, Pajero Manufacturing Co., Ltd., a domestic consolidated subsidiary, was excluded from the scope of consolidation following the completion of its liquidation.

Application of specific accounting treatment for preparing the quarterly consolidated financial statements

Tax expense calculation

Tax expenses are calculated first by reasonably estimating the effective tax rate after applying tax effect accounting against profit (loss) before income taxes for the fiscal year including the third quarter ended December 31, 2023, and next by multiplying the quarterly profit (loss) before income taxes by such estimated effective tax rate. In case where the estimated effective tax rate is unavailable, statutory effective tax rate is used.

#### 2. Contingent liabilities

On October 30, 2023, a jury in the Philadelphia Court of Common Pleas has ordered MMC's North American subsidiary, Mitsubishi Motors North America Inc. (MMNA) to pay 976 million dollars in damages in a product liability lawsuit. No final judgment has yet been awarded in this case. MMC intends to closely monitor this case. MMNA will take all necessary legal actions, including an appeal to the final judgment when awarded.

While the MMC group has been developing its business in various countries around the world, it has been cooperating with regard to various lawsuits, including the case above, tax inquiries by tax authorities, administrative researches by regulatory agencies, etc. While some of these have recorded provisions based on estimated future losses, others have a certain degree of likelihood that loss would occur going forward, but it is not possible to make a reasonable estimation of such loss for the future at this point in time. Therefore, MMC has not recorded any provisions with regard to the latter.

#### 3. Commitment line agreement

In order to prepare for increases in demand for funds and to secure funding liquidity, MMC has concluded commitment line agreements with 20 correspondent financial institutions, in addition to overdraft agreements.

The outstanding balance of unused commitment line as of December 31, 2023 based on this agreement is as follows:

#### Quarterly consolidated statement of income

#### \*1. Gain on sale of non-current assets

For the nine months ended December 31, 2022 (from April 1, 2022 to December 31, 2022)

The gain on sale of non-current assets was primarily from the sale of land owned by MMC that was conducted in conjunction with the transfer of Takatsuki Auto Square.

#### \*2. Gain on liquidation of subsidiaries

For the nine months ended December 31, 2023 (from April 1, 2023 to December 31, 2023)

This resulted from completing the liquidation of Pajero Manufacturing Co., Ltd., a domestic consolidated subsidiary of MMC.

# \*3. Loss related to Russian operations

For the nine months ended December 31, 2022 (from April 1, 2022 to December 31, 2022)

The MMC group engages in assembly, production, and sales of finished vehicles in Russia through one consolidated subsidiary and affiliates in Russia that are accounted for under the equity method; however, Russia's military invasion of Ukraine has disrupted logistics networks, causing parts supplies to be frozen, hence production has remained suspended. Moreover, in light of the protraction and increasing turmoil of the situation, it is now unlikely that production will be restarted.

As a result, the MMC group has incurred costs such as disposal and valuation loss of components for production, excess charges for storage of components for production and arrears for the return of containers, etc., and has recorded extraordinary losses of 9,194 million yen.

For the nine months ended December 31, 2023 (from April 1, 2023 to December 31, 2023)

The MMC group engages in assembly, production, and sale of finished vehicles in Russia through one consolidated subsidiary and multiple affiliates in Russia; however, MMC has decided not to resume production in Russia.

As a result, MMC has incurred costs such as disposal loss of components for production and arrears for the return of containers, etc., and has recorded extraordinary losses of 955 million yen.

# \*4. Loss related to Chinese operations

For the nine months ended December 31, 2023 (from April 1, 2023 to December 31, 2023)

Although the MMC group affiliate in China, GAC Mitsubishi Motors Co., Ltd., tried to recover its sales volume by releasing a new model in December 2022, it continued to fall short of its plan and has suspended its production since March 2023 in order to adjust its inventory. In light of this situation, we decided to fundamentally review our China strategy and implement structural reforms.

To this end, we recorded a loss related to Chinese operations of 24,669 million yen, which included compensation to related business partners and suppliers, and other associated costs.

# Quarterly consolidated statement of cash flows

#### Auditor's Conclusion

We have reviewed, pursuant to the provisions of Article 193-2, paragraph (1) of the Financial Instruments and Exchange Act of Japan, the quarterly consolidated financial statements included in "Financial Information," which consist of the quarterly consolidated balance sheet, quarterly consolidated statement of income, quarterly consolidated statement of comprehensive income and notes thereto of MITSUBISHI MOTORS CORPORATION ("MMC") for the third quarter ended December 31, 2023 (October 1, 2023 through December 31, 2023) and the nine months ended December 31, 2023 (April 1, 2023 through December 31, 2023).

Based on our review, nothing has come to our attention that causes us to believe that the quarterly consolidated financial statements referred to above do not present fairly, in all material respects, the financial position of MMC and its consolidated subsidiaries as of December 31, 2023, and the operating results for the nine-month period then ended in conformity with accounting principles for quarterly consolidated financial statements generally accepted in Japan.

#### Basis for Auditor's Conclusion

We conducted our review in accordance with the quarterly review standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Quarterly Review of the Quarterly Consolidated Financial Statements section of our report. We are independent of the MMC group in accordance with the ethical requirements that are relevant to our review of the financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that we have obtained evidence to form the basis for the statements of conclusion.

#### Responsibilities of Management and Audit Committee for the Quarterly Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the quarterly consolidated financial statements in accordance with accounting principles for quarterly consolidated financial statements generally accepted in Japan, and for designing and operating such internal control as management determines is necessary to enable the preparation and fair presentation of the quarterly consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the quarterly consolidated financial statements, management is responsible for assessing the MMC group's ability to continue as a going concern and disclosing, as required by accounting principles for quarterly consolidated financial statements generally accepted in Japan, matters related to going concern.

The Audit Committee is responsible for overseeing the performance of duties by Executive Officers and Directors regarding the development and operation of the MMC group's financial reporting process.

Auditor's Responsibilities for the Quarterly Review of the Quarterly Consolidated Financial Statements

Our responsibility is to express a conclusion on these quarterly consolidated financial statements in the Independent Auditor's Quarterly Review Report independently based on our review.

As part of a quarterly review in accordance with the quarterly review standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the quarterly review. We also:

- Conduct procedures, including inquiries primarily to management and persons responsible for financial and accounting matters, analytical procedures, and other quarterly review procedures. Quarterly review procedures are more limited in scope compared with an annual audit conducted in accordance with auditing standards generally accepted in Japan.
- Conclude, based on the evidence obtained, whether there are matters that cause us to believe the quarterly consolidated financial statements and disclosures have not been presented fairly in conformity with accounting principles for quarterly financial statements generally accepted in Japan if a material uncertainty exists related to events or conditions that may cast significant doubt on the matters concerning the ability of the MMC group to continue as a going concern. In addition, if we conclude that a material uncertainty exists concerning the ability of the MMC group to continue as a going concern, we are required to draw attention in our quarterly review report to the related disclosures in the quarterly consolidated financial statements, or if the relevant disclosures in the quarterly consolidated financial statements concerning material uncertainty are inadequate, we provide a qualified conclusion or a negative conclusion in relation to the quarterly consolidated financial statements. Our conclusions are based on the evidence obtained up to the date of the quarterly review report. However, future events or conditions may cause the MMC group to cease to continue as a going concern.
- Evaluate whether there are matters that cause us to believe the quarterly consolidated financial statements and disclosures
  have not been prepared in conformity with accounting principles for quarterly financial statements generally accepted in
  Japan and whether there are matters that cause us to believe the overall presentation, structure and content of the quarterly
  consolidated financial statements, including the disclosures, and the transactions and events that underlie the quarterly
  consolidated financial statements have not been presented fairly.
- Obtain evidence regarding the financial information of MMC and its consolidated subsidiaries to express a conclusion
  on the quarterly consolidated financial statements. We are responsible for the direction, supervision and performance
  regarding the quarterly review of the quarterly consolidated financial statements. We remain solely responsible for our
  conclusion.

We report to the Audit Committee regarding the planned scope and timing of the quarterly review and significant findings that we identify during the quarterly review.

We also provide the Audit Committee with a report that we have complied with the ethical requirements in Japan regarding independence, on matters that may be reasonably thought to impact our independence, as well as cases where countermeasures have been established to eliminate obstructions to our independence or cases where safeguards have been applied to reduce these obstructions to allowable levels.

#### Conflict of Interest

We have no interest in or relationship with MMC and its consolidated subsidiaries which is required to be disclosed pursuant to the provisions of the Certified Public Accountant Act of Japan.

(Notes) 1. The original of the Independent Auditor's Quarterly Review Report above is kept separately by MMC (the filing company of the Quarterly Securities Report).

2. XBRL data is not included in the scope of the quarterly review.
