

## **All-New Xforce Earns the Highest Rating of Five Stars in 2024 ASEAN NCAP**

**Tokyo, August 5, 2024** – Mitsubishi Motors Corporation (hereafter, Mitsubishi Motors) announced that its all-new Xforce<sup>1</sup> compact SUV has earned a maximum five-star rating in the 2024 ASEAN NCAP<sup>2</sup>, a comprehensive safety performance assessment for new vehicles in the ASEAN region.

Mitsubishi Motors remains committed to its safety-oriented philosophy of achieving a mobility society with zero traffic accidents through continued efforts to develop and popularize safety technologies, and to spread knowledge about traffic safety.

All-new Xforce

The Xforce employs the high-rigidity RISE<sup>3</sup> body that both absorbs energy and minimizes cabin deformation in the event of a crash, as well as six SRS airbags<sup>4</sup> to ensure collision safety performance. It also adopts advanced safety features<sup>4</sup>, such as Forward Collision Mitigation system (FCM), Blind Spot Warning (BSW), Rear Cross Traffic Alert (RCTA), and Automatic High Beam (AHB), to provide a high level of preventive safety performance.

Premiered in Indonesia in 2023, the Xforce is a compact five-seat SUV built around the concept of being the “best-suited buddy for an exciting life” and was developed with a focus on how compact SUVs are used in the ASEAN region. It features a stylish yet robust, authentic SUV styling, along with comfort and practicality, such as a spacious cabin and versatile storage spaces, all well-balanced in a maneuverable, compact body size. Furthermore, it delivers safe and reliable road handling in various weather or road conditions, including rough or flooded roads.

Following its sales launch in Indonesia in November 2023, the Xforce was released in other ASEAN markets, including Vietnam in March and the Philippines in July. It is also available in Latin America and Africa, with plans to gradually extend the rollout to the Middle East and South Asia.

1. Sold as the Outlander Sport In some markets
2. New Car Assessment Program for Southeast Asian Countries
3. Reinforced Impact Safety Evolution
4. Equipped on certain trim levels

### **About Mitsubishi Motors**

Mitsubishi Motors Corporation (TSE:7211) – a member of the Alliance with Renault and Nissan – is a global automobile company based in Tokyo, Japan, which has about 28,000 employees and a global footprint with production facilities in Japan and the ASEAN region. Mitsubishi Motors has a competitive edge in SUVs, pickup trucks and plug-in hybrid electric vehicles, and appeals to ambitious drivers willing to challenge convention and embrace innovation. Since the production of our first vehicle more than a century ago, Mitsubishi Motors has been a leader in electrification – launched the i-MiEV, the world's first mass-produced electric vehicle in 2009, followed by the Outlander PHEV, the world's first plug-in hybrid electric SUV in 2013. With a target of increasing the sales ratio of electrified vehicles to 100% by 2035, Mitsubishi Motors will deliver models that embody Mitsubishi Motors-ness and contribute to the realization of a carbon-neutral society.
