GLX shown with optional equipment / Leasing GLX shown Metallic, LHD; Right-Hand Models: P26
For More Active Urban Adventures.
Let the road become your playground in the new Mitsubishi ASX, a compact SUV built for powerful driving pleasure. From its fierce new face to functional new interior details, the ASX has been completely revamped to inspire unique urban adventures. So grip the wheel and feel the adrenaline rush as you cruise the streets in this elegantly rugged SUV.
INVECS-III CVT
The 2.0-liter engine is teamed with the INVECS-III (Intelligent & Innovative Vehicle Electronic Control System) CVT (Continuously Variable Transmission), ideally tuned to deliver effortless acceleration from any speed.

Color Liquid Crystal Multi-information Display
Attractively designed color liquid crystal multi-information display provides a useful readout of vehicle, trip and outside temperature. With a large, 3.3-inch size for improved visibility, this display makes it easy for drivers to stay informed.

Link System
The Link system connects external devices with the vehicle’s systems. Devices connected to the USB port or via Bluetooth®, such as mobile phones or MP3 players, may be controlled via the on-board switch or by voice command.

USB Port
The USB port allows you to connect your portable media player and enjoy your full music library in premium quality.

Bluetooth® Hands-free Kit
Keep in touch while keeping safely in control with the hands-free kit. Link your Bluetooth®-compatible mobile phone, and the voice-activated dialer lets you make calls while holding the wheel.

Note: The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by MITSUBISHI MOTORS CORPORATION is under license.
Your Natural Environment

Panoramic Glass Roof with Interior LED Illumination
The panoramic glass roof adds a new dimension to the drive, allowing you and your passengers to enjoy the view from every direction. Retracting the sunshade reveals a full-size glass roof panel extending over the front and rear seats. At night, the roof is attractively illuminated with LED lamps.

9-speaker Rockford Fosgate® Premium Sound System
This system features high-quality sound and bass response with a powerful punch. The speakers are fitted precisely into the door panels, turning them into frequency enhancing speaker cabinets. In addition, sound levels are automatically adjusted to suit the vehicle’s speed.

Center Console with Stitched Soft Touch Knee Pad
With all the work that has gone into condensing ASX to just the right size for active driving fun, you may be surprised at all the spacious comfort that awaits you and your passengers inside. Rear seat passengers will be impressed with the leg- and headroom, and everyone will enjoy the soothing upholstery, available in handsome leather or soft fabric. Numerous storage compartments have been placed throughout the interior, giving you plenty of room for all the extras you want to take along.
Engine Switch + Keyless Operation System
The Keyless Operation System lets you activate the ignition just by pressing the button located near the center of the dash panel with the brake depressed and the shift in parking position for CVT. Once you've arrived, one more push shuts the engine off.

Paddle Shifters & Cruise Control
Mounted within easy reach, the paddle shifters allow you to enjoy sporty control while keeping both hands safely on the wheel. Shifting is quick and easy, with up- and down-shifts requiring just a simple press on the ASX's E6C in "D" mode. For added convenience, the current gear position is clearly displayed on the multi-information display. Paddle shifters can also be equipped with cruise control, for greater performance on the road.

Electronically Controlled 4WD
Using one centrally located button, the system permits freely switching between 3 drive modes depending on driving condition or environment. Easily accessible on the floor console, the drive-mode selector button can quickly change the ASX's drive mode from fuel-efficient 2WD, to 4WD Lock Mode for mastering even demanding off-road or weather conditions.

2WD Mode: Enables economical performance approaching that of a normal front-engine front-wheel-drive car.

4WD Auto Mode: The "4WD Auto" mode automatically distributes the right amount of torque to all wheels depending on the driving condition. It maintains stability in strong wind, on highways and slippery roads.

4WD Lock Mode: "4WD Lock" mode for steep hills, slippery or rough roads, and when getting out of mud or snow.

Suspensions
ASX features MacPherson strut front and multi-link rear suspensions for smooth handling over rough roads. Shock absorbers and stabilizers are tuned for sporty, comfortable performance.

High Hip Point and Good Visibility
ASX provides a surprisingly elevated seat position that, with the sloping hood design, gives a better view of the road for easier maneuvering and greater safety. The raised hip point also allows for smoother entrances and exits, and greater comfort.
Room to Choose

Cargo Capacity
No matter where you’re headed, ASX lets you carry whatever you need for when you get there, with up to 358 liters of available cargo capacity with five passengers. The tailgate is wide enough to provide ample space for even the bulkiest items, and the low floor height makes it convenient to move heavy cargo in and out.

1,390 mm maximum width of cargo area  1,510 mm maximum length with rear seats folded down  Measured by Mitsubishi Motors Corporation.

Full-flat Rear Seat / 60:40 Split Foldable Seatback
To carry even larger items, the rear seat can be folded down completely flat to create an expansive cargo space. The 60:40 split rear seat can also be partially folded down, giving you the room to carry bicycles or other extra-long items, while still having rear seating available.

Ready for Anything

Super Wide Range HID Headlamps

What you can’t see, can hurt you. To take more of the road out of the shadows, ASX features Super Wide Range HID (High Intensity Discharge) headlamps. When activated, the headlamp clusters send out broader beams of light, illuminating a much wider section of the road ahead.

7-Airbag System
So that you and your passengers can be safer in the event of a collision, ASX is equipped with a 7-airbag system to provide increased safety to every seat. The front seat occupants are protected by front airbags, plus an additional knee airbag for the driver to help protect the legs in a forward collision. In a side collision, the front occupants are protected by side airbags and occupants in both rows are protected by curtain airbags extending along the sides.

Active Stability Control (ASC)

ASC uses onboard sensors to analyze the vehicle’s motion and identify lateral wheel slippage. By governing engine output and controlling braking force to the appropriate wheels, ASC helps maintain stability and traction control.

Traction Control Function (TCL)
When wheel spin is detected, engine output is governed and braking force is applied to the spinning wheels to prevent driving torque loss.

Hill Start Assist (HSA)
HSA prevents the vehicle from rolling backward by automatically braking when starting on an uphill slope.

Note:  Hill Start Assist (HSA) is not a substitute for safe driving. Never rely solely on this function while driving on steep slopes. Do not install any aftermarket limited slip differential on your vehicle. Please see the owner’s manual for additional information.

Note:  The control capabilities of ASC/TCL are supplemental only. Please drive safely and never rely solely on these functions while driving. Be sure to read the same speed limit and site of turns on all 4 wheels. Do not install any aftermarket limited slip differential on your vehicle. Please see the owner’s manual for additional information.

Note:  The control capabilities of HSA/ASC are supplemental only. Please drive safely and never rely solely on these functions while driving. GLX (2WD/4WD) with Options (recommended Package 1)

Red Metallic (P26)

Key features
- 225/60 R16 tires with 16-inch alloy wheels
- 2-way driver’s seat
- 4-way passenger’s seat
- Power windows
- Power locks
- Power mirrors
- Daytime running lamps
- Auto rain-sensing intermittent wipers and washers
- Auto lighting control
- Blue light knock sensor
- Overhead console

Key features (optional equipment in addition to Package 1)
- 8-inch color display with touch-screen control
- iPod adapter
- Bluetooth® hands-free cellular phone interface system with voice recognition
- 2-speed automatic transmission
