

## **Mitsubishi Motors to Terminate Its Joint Venture Partnership with Shenyang Aerospace Mitsubishi Motors Engine Manufacturing**

---

**Tokyo, July 22, 2025** – Mitsubishi Motors Corporation (hereafter, Mitsubishi Motors) announced the termination of its engine business operation at Shenyang Aerospace Mitsubishi Motors Engine Manufacturing Co., Ltd. (hereinafter, SAME) in China and has terminated the joint venture partnership.

Established in August 1997, SAME began engine production in 1998 and has played a key role in China's expanding automotive market by supplying engines not only to Mitsubishi-branded vehicle manufacturers, but also to numerous Chinese automakers. However, in response to the rapid transformation of China's automotive industry, Mitsubishi Motors has reassessed its strategy in the region and has decided to terminate its participation in the joint venture.

### **About Mitsubishi Motors**

Mitsubishi Motors Corporation (TSE:7211) – a member of the Alliance with Renault and Nissan – is a global automobile company based in Tokyo, Japan, which has about 28,000 employees and a global footprint with production facilities in Japan and the ASEAN region. Mitsubishi Motors has a competitive edge in SUVs, pickup trucks and plug-in hybrid electric vehicles, and appeals to ambitious drivers willing to challenge convention and embrace innovation. Since the production of our first vehicle more than a century ago, Mitsubishi Motors has been a leader in electrification – launched the i-MiEV, the world's first mass-produced electric vehicle in 2009, followed by the Outlander PHEV, the world's first plug-in hybrid electric SUV in 2013. With a target of increasing the sales ratio of electrified vehicles to 100% by 2035, Mitsubishi Motors will deliver models that embody Mitsubishi Motors-ness and contribute to the realization of a carbon-neutral society.
