

Mitsubishi Motors to Exhibit at Japan Mobility Show 2025 - Showcasing a Mobility Experience Inspired by the Spirit of "Forever Adventure"

Tokyo, September 30, 2025 – Mitsubishi Motors Corporation (hereafter, Mitsubishi Motors) has announced its participation in the Japan Mobility Show 2025¹ to be held in Tokyo, Japan. Under the booth theme "Forever Adventure," the company will showcase a concept car featuring future technologies, along with models that embody the spirit of adventure – highlighting the enduring splendor of adventure that remains unchanged, even in the distant future.

Additionally, the company has launched a special website to share updates and information about its participation in the Japan Mobility Show 2025:
<https://www.mitsubishi-motors.com/en/brand/jms2025/>

With its distinctive technologies – including electrification, all-wheel control, durability and reliability, and comfortability – Mitsubishi Motors delivers vehicles that are environmentally-friendly and enable drivers to enjoy safe, secure, and comfortable driving in various road and weather conditions.

Each Mitsubishi vehicle caters to the driver's unique style of adventure, inspiring an adventurous spirit in everyone – both behind the wheel and on board. The Delica D:5 all-around minivan combines cabin comfort with powerful off-road performance. The Delica Mini super height-wagon kei-car² offers comfort, toughness, and a charming design – perfectly sized for easy navigation. The Triton pickup truck balances rugged durability with SUV-level comfort and steering stability. The Outlander PHEV electrified crossover SUV achieves excellent environmental performance and driving performance, while also offering added value as a storage battery.

Through this exhibition, Mitsubishi Motors invites visitors to explore its vision

for the future of mobility and celebrate the timeless spirit of adventure – a value that will continue to inspire people across generations. While driver-assistance technologies evolve through innovation, the company remains committed to the pure joy of driving and envisions a mobility experience that sparks a sense of adventure.

1. The Japan Mobility Show 2025 is organized by the Japan Automobile Manufacturers Association, Inc. Press days are on October 29 and the morning of October 30, followed by a special invitation day on October 31. The show will be open to the public from the afternoon of October 31 through November 9.
2. Kei-car is a vehicle category in Japan for microcars.

About Mitsubishi Motors

Mitsubishi Motors Corporation (TSE:7211) – a member of the Alliance with Renault and Nissan – is a global automobile company based in Tokyo, Japan, which has about 28,000 employees and a global footprint with production facilities in Japan and the ASEAN region. Mitsubishi Motors has a competitive edge in SUVs, pickup trucks and plug-in hybrid electric vehicles, and appeals to ambitious drivers willing to challenge convention and embrace innovation. Since the production of our first vehicle more than a century ago, Mitsubishi Motors has been a leader in electrification – launched the i-MiEV, the world's first mass-produced electric vehicle in 2009, followed by the Outlander PHEV, the world's first plug-in hybrid electric SUV in 2013. With a target of increasing the sales ratio of electrified vehicles to 100% by 2035, Mitsubishi Motors will deliver models that embody Mitsubishi Motors-ness and contribute to the realization of a carbon-neutral society.
